Re: Approved Amended Plan, Western Clay Company, Bentonite Pits, M/041/012, Sevier County, Utah

Dear Mr. Boyter:

Thank you for submitting the updated maps for the Bentonite Pits, received April 8, 2002, to be incorporated into Western Clay's amended plan. The amendment which increased your project to 33.24 acres was approved on March 28, 2002.

We have incorporated the maps into the plan and have stamped the amended plan "approved" and are returning one copy to you for your files. In the future, if any changes need to be made to the approved plan, please use the redline and strikeout method on the applicable pages that need to be changed or added.

It has been a pleasure working with you on updating this project and look forward to a continued great working relationship. If I can be of any further assistance, please do not hesitate to contact me. Best of luck in your continued mining.

Sincerely,

A handwritten signature in cursive script that reads "Doug Jensen".

Doug Jensen
Senior Reclamation Specialist
